The stains were left on the sample in a horizontal position for @ least 36 h in indoor ambient conditions

Authorised signatures:

Signed:  v

Zeb Alam
Technical Manager

PHYSICAL TEST CERTIFICATE – 84932

STAIN TREATMENT:

Products that are readily available to the domestic market were used to treat the stains for example: Troubleshooter 1001 (for carpets & upholstery) & the Stain Devils Range.

TREATMENT FOR WET SIDE SAMPLE:

Using the 1001 cleaning spray & Stain Devil on the affect areas. Each area was sponged then dried with kitchen role to wipe away the stains.

TREATMENT FOR DRY SIDE SAMPLE:

Using Nail Polish Remover (Acetone Free) & Stain Devil on the affect areas.

RESULT: FACE OF PRODUCT

WET SIDE		DRY SIDE

Chocolate	Removed.		
BBQ sauce	Removed.		
Balsamic Vinegar	Removed.		

Please note: Water staining observed on fabric during cleansing period.

Cleansing Recommendations for Sample.

- Any staining should be removed as quickly as possible upon detection
- Bodily fluids can be removed easily with water
- Some Fats and oily substances can be removed with upholstery cleaner and detergent
- Light disinfectant can be used (do not soak / no prolonged use)
- **Any cleaning fluids that contain strong solvent will damage/discolour fabric.**
- **Avoid marking with Lipstick, Nail Varnish, Mustard and a Ball Point Pen.**

We are unable to determine the effect of other substances or ranges of products - which this fabric may come into contact with; therefore we cannot accept responsibility for any future problems that may arise with this fabric caused by various staining and cleansing treatments.
